

16" and 20" Composite Slickline Floor Sheave

The Wireline Technologies, Inc. 16" and 20" Slickline Sheave feature a lightweight composite wheel, high strength aluminium and stainless steel structural components, and a simple side loading system that provides easy line placement. Incorporation of cable shrouds above the wheel prevents the line from "jumping sheave." Side locking design provides increased durability and ease of use.

Dimensions & Weights

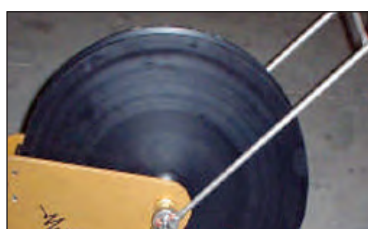

16":	(W) 10.16 cm, 4 in (H) 66.04 cm, 26 in (Weight) 9 kg, 20 lbs
20":	(W) 10.16 cm, 4 in (H) 76.20 cm, 30 in (Weight) 10.5 kg, 23 lbs

Specifications

- SWL- 6,000 lbs. (3,000 lbs. line)
- Proof test load- 12,000 lbs. (6,000 lbs. Line)
- Standard line sizes- .092"- .108" & .108"- .125"
(Custom grooving is available)

Features & Benefits

- Side loading system for ease of use
- Cable shrouds reduce "line jumping"
- Composite wheel is less abrasive to expensive lines
- One year manufacturers warranty
- Fully certified (Certificate supplied)
- Solid wheel and available handguard for added safety

Floorstand

- Provides support for your WTI Sheave
- One sided design allows the line to be loaded/unloaded while attached
- Sizes available for the 16" and 20" as well as the 25 and 30" sheaves
- Powder coated to protect against corrosion

PART NUMBER L-840998

Handguard / Bushing System

- Protects operator's hands and clothing from being drawn into sheave
- Should be used wherever a running line can be touched by an operator
- Patented design allows the line to be loaded after attachment
- Can be used to keep the sheave upright during slack line conditions

PART NUMBER L-840999

Line Wiper

- Helps maintain a clean running line, reducing maintenance time
- Easily attached to sheave and adjustable to fit any line size
- Made from anodized aluminium to protect against corrosion

PART NUMBER L-8601028884

Rig-Up Yoke

- Provides an alternative place to attach a "tugger line"
- Can be used to stabilize top mounted (hanging) sheaves
- Made from stainless steel to resist corrosion

PART NUMBER L-8601019096
