

NOTE: Servo and Counters wired in directly from devices

High Current DC Outputs
Circuit Breakers (2 Amp)

High Current DC Outputs
User Connection Point
(2 Amp) (Red)

High Capacity DC
Outputs (.5 Amp)
(Green)

Digital Inputs
(Gray)

Analog Inputs
Differential
(Blue)

Analog Inputs
Single Ended
(Black)

Analog Outputs
(Orange)

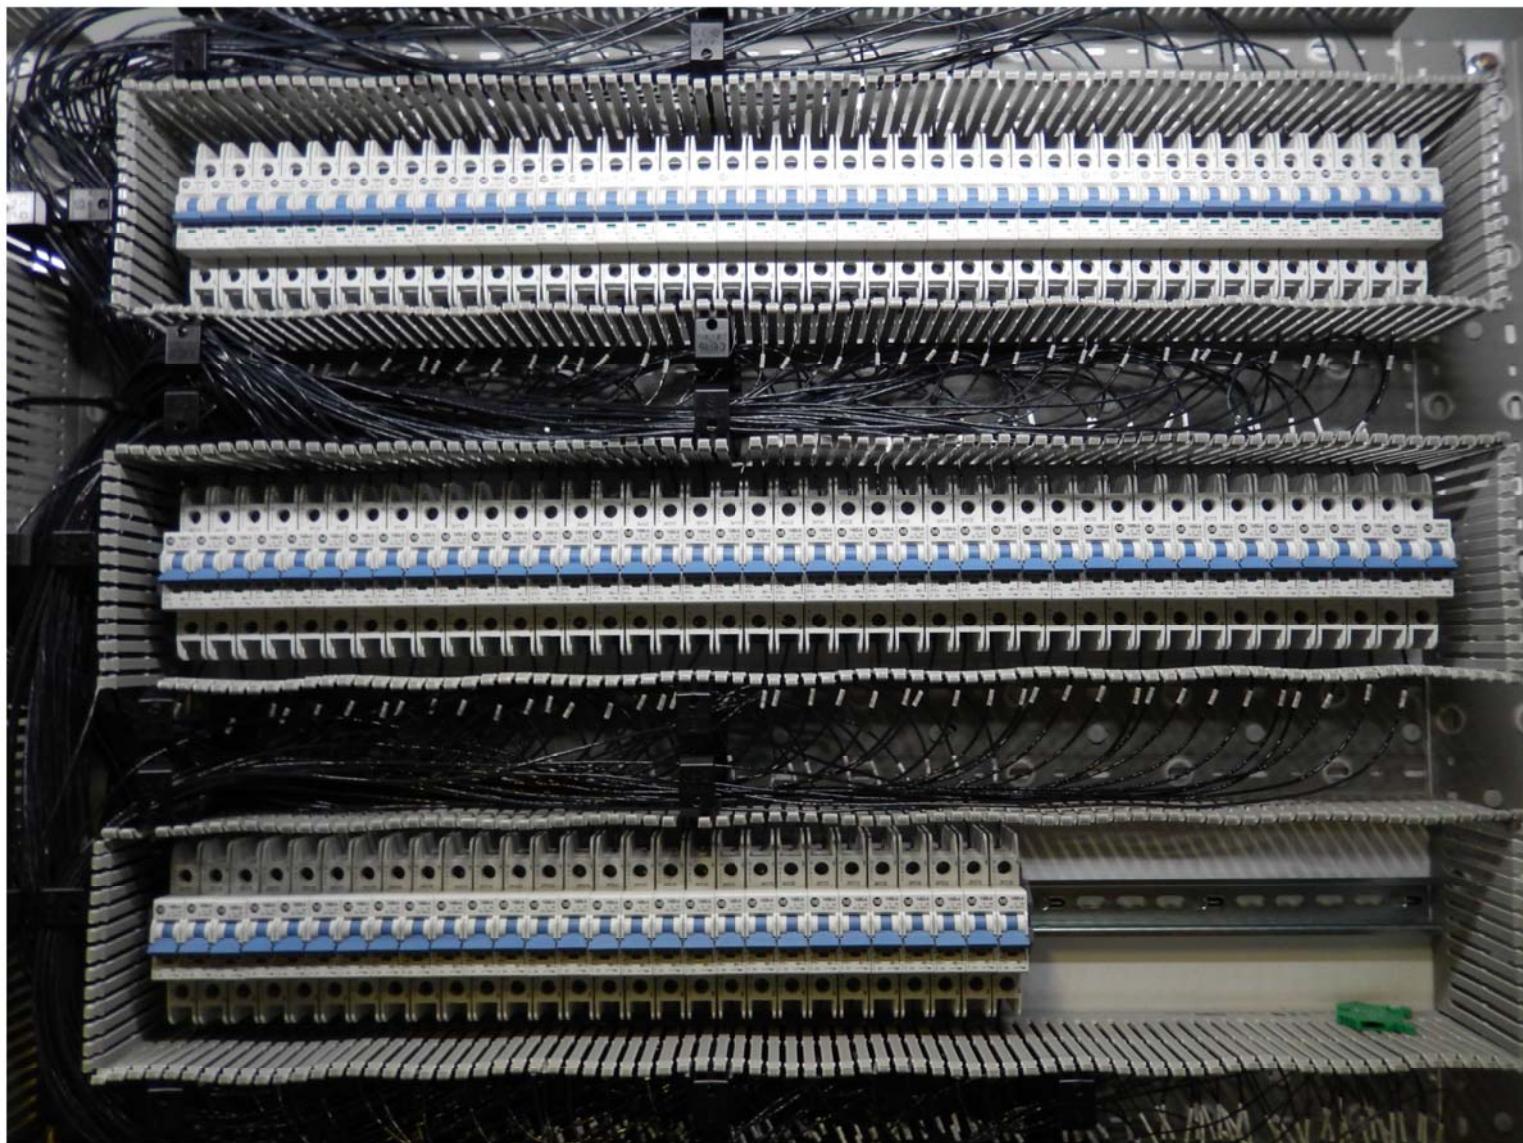

High Output LED lights (low energy does not add much heat to cabinet when on) (lights turn off automatically when door closes)

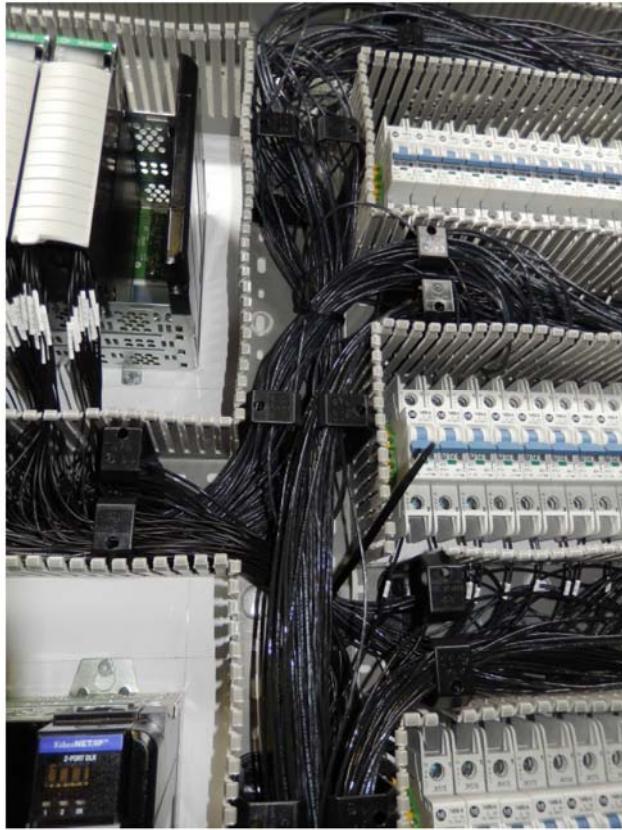

NOTE: Each light includes an AC plug for misc user connection needs

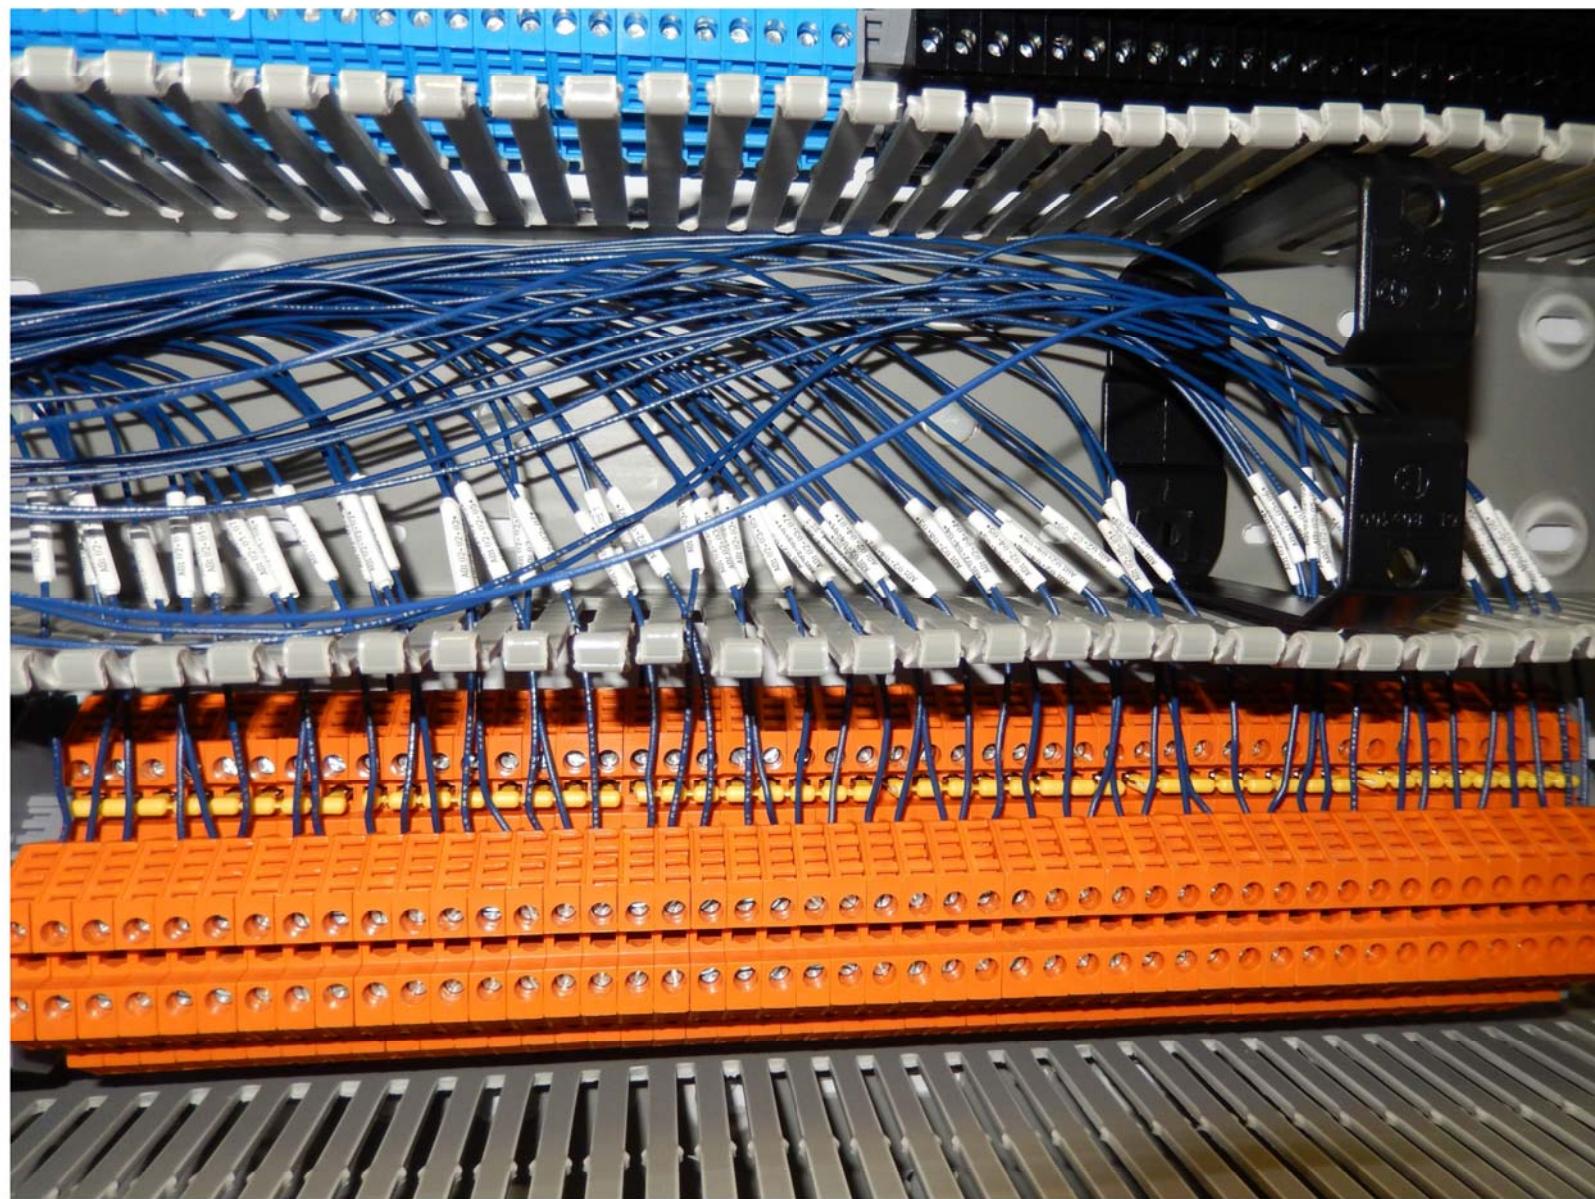

Circuit Breaker Closeup of Wiring

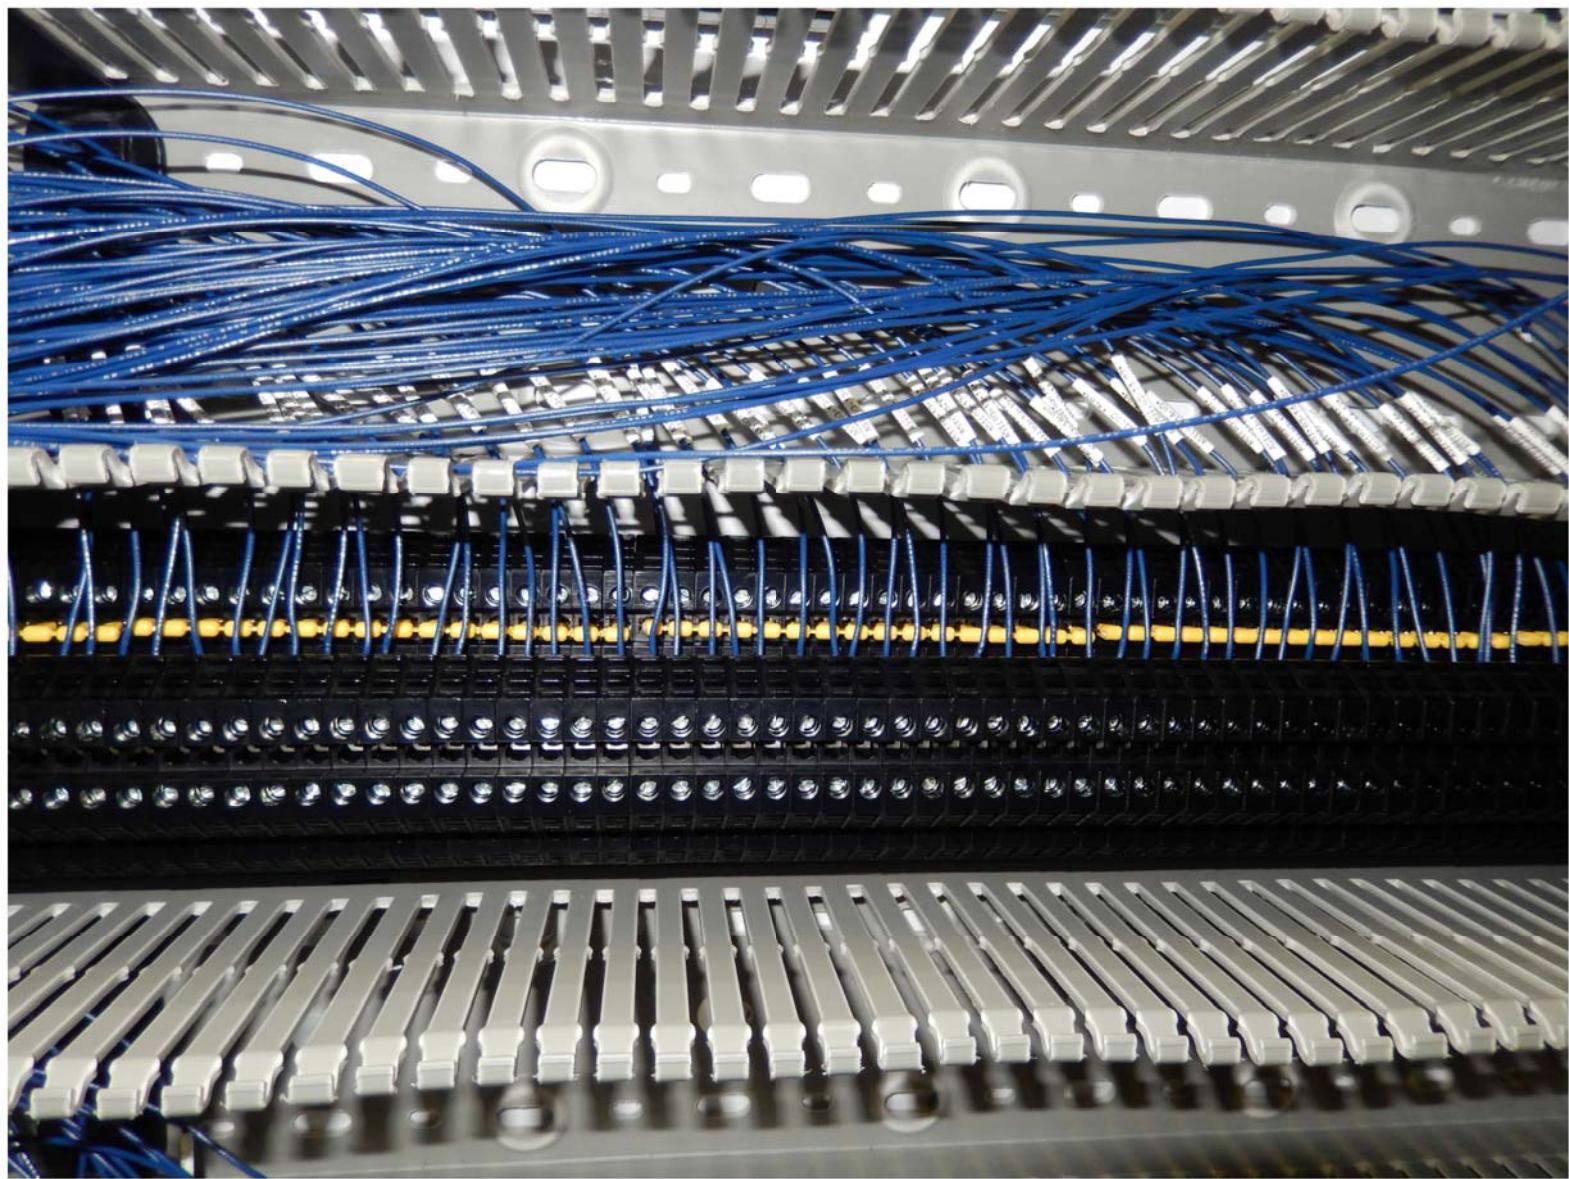

Digital Wires in Black, Analog wires in Blue for easy identification

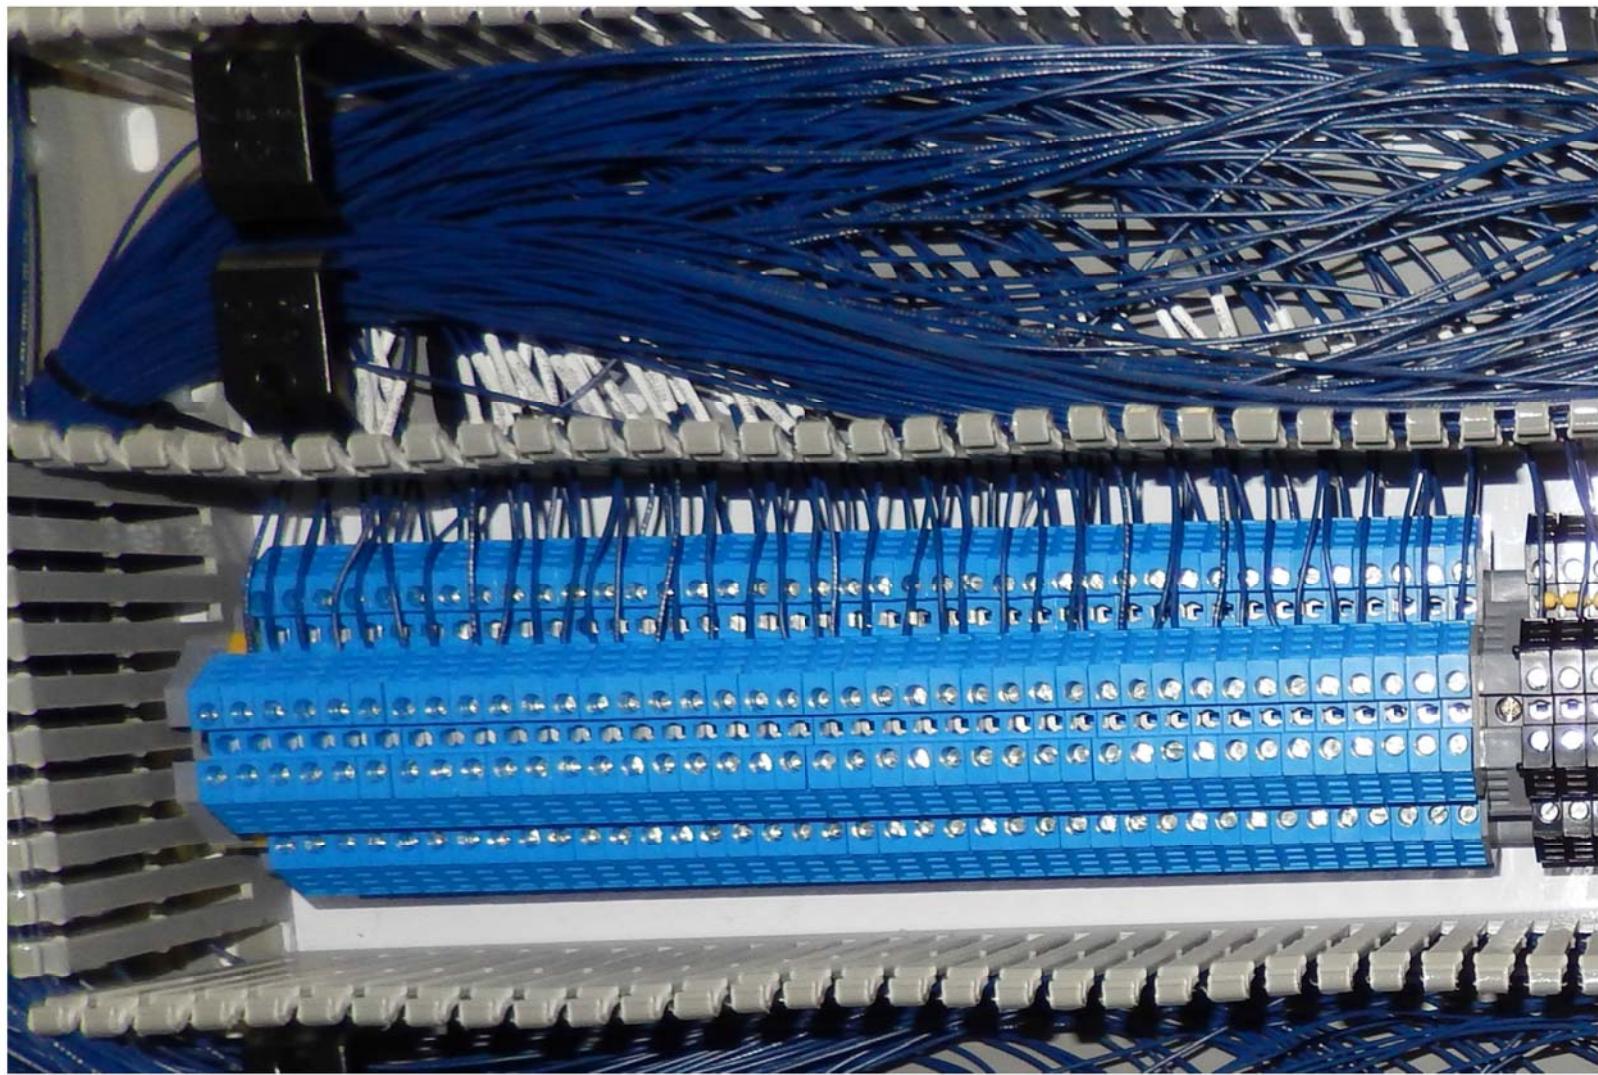

Analog Outputs

Single Ended Analog Inputs

Differential Analog Inputs

High Capacity DC Outputs (.5 Amp Max)
